1. Introduction

- 1.1 The Client named in the Data Sheet will select a consulting firm/organization (the Consultant) from those listed in the Letter of Invitation, in accordance with the method of selection specified in the Data Sheet.
- 1.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the Data Sheet, for consulting services required for the assignment named in the Data Sheet. The Proposal will be the basis for contract negotiations and ultimately for a signed Contract with the selected Consultant.
- 1.3 Consultants should familiarize themselves with local conditions and take them into account in preparing their Proposals. To obtain first-hand information on the assignment and local conditions, Consultants are encouraged to visit the Client before submitting a proposal and to attend a pre-proposal conference if one is specified in the Data Sheet. Attending the pre-proposal conference is optional. Consultants should contact the Client’s representative named in the Data Sheet to arrange for their visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 1.4 The Client will timely provide at no cost to the Consultants the inputs and facilities specified in the Data Sheet, assist the firm in obtaining licenses and permits needed to carry out the services, and make available relevant project data and reports.
- 1.5 Consultants shall bear all costs associated with the preparation and submission of their proposals and contract negotiation. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultants.

Conflict of Interest

- 1.6 Bank policy requires that Consultants provide professional, objective, and impartial advice and at all times hold the Client’s interests paramount, strictly avoid conflicts with other assignments or their own corporate interests and act without any consideration for future work.
- 1.6.1 Without limitation on the generality of the foregoing, Consultants, and any of their affiliates, shall be considered to have a conflict of interest and shall not be recruited, under any of the circumstances set forth

below:

Conflicting activities

- (i) A firm that has been engaged by the Client to provide goods, works or services other than consulting services for a project, and any of its affiliates, shall be disqualified from providing consulting services related to those goods, works or services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, and any of its affiliates, shall be disqualified from subsequently providing goods or works or services other than consulting services resulting from or directly related to the firm's consulting services for such preparation or implementation. For the purpose of this paragraph, services other than consulting services are defined as those leading to a measurable physical output, for example surveys, exploratory drilling, aerial photography, and satellite imagery.

Conflicting assignments

- (ii) A Consultant (including its Personnel and Sub-Consultants) or any of its affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant to be executed for the same or for another Client. For example, a Consultant hired to prepare engineering design for an infrastructure project shall not be engaged to prepare an independent environmental assessment for the same project, and a Consultant assisting a Client in the privatization of public assets shall not purchase, nor advise purchasers of, such assets. Similarly, a Consultant hired to prepare Terms of Reference for an assignment should not be hired for the assignment in question.

Conflicting relationships

- (iii) A Consultant (including its Personnel and Sub-Consultants) that has a business or family relationship with a member of the Client's staff who is directly or indirectly involved in any part of (i) the preparation of the Terms of Reference of the assignment, (ii) the selection process for such assignment, or (iii) supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.

- 1.6.2 Consultants have an obligation to disclose any situation of actual or potential conflict that impacts their capacity to serve the best interest of their Client, or that may reasonably be perceived as having this effect. Failure to disclose said situations may lead to the disqualification of the Consultant or the termination of its Contract.
- 1.6.3 No agency or current employees of the Client shall work as Consultants under their own ministries, departments or agencies. Recruiting former government employees of the Client to work for their former ministries, departments or agencies is acceptable provided no conflict of interest exists. When the Consultant nominates any government employee as Personnel in their technical proposal, such Personnel must have written certification from their government or employer confirming that they are on leave without pay from their official position and allowed to work full-time outside of their previous official position. Such certification shall be provided to the Client by the Consultant as part of his technical proposal.
- Unfair Advantage**
- 1.6.4 If a shortlisted Consultant could derive a competitive advantage from having provided consulting services related to the assignment in question, the Client shall make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any competitive advantage over competing Consultants.
- Fraud and Corruption**
- 1.7 The Bank requires that all Borrowers (including beneficiaries of Bank loans), as well as Consultants participating in Bank-financed projects adhere to the highest ethical standards, both during the selection process and throughout the execution of a contract. In pursuance of this policy, the Bank:
- (a) defines, for the purpose of this paragraph, the terms set forth below as follows:
- (i) “corrupt practice” means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence the action of a public official in the selection process or in contract execution;
- (ii) “fraudulent practice” means a misrepresentation or omission of facts in order to influence a selection process or the execution of a contract;
- (iii) “collusive practices” means a scheme or arrangement between two or more consultants

with or without the knowledge of the Borrower, designed to establish prices at artificial, noncompetitive levels;

- (iv) “coercive practices” means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in a procurement process, or affect the execution of a contract.
 - (b) will reject a proposal for award if it determines that the Consultant recommended for award has, directly or through an agent, engaged in corrupt, fraudulent, collusive or coercive practices in competing for the contract in question;
 - (c) will cancel the portion of the loan allocated to a contract if it determines at any time that representatives of the Borrower or of a beneficiary of the loan were engaged in corrupt, fraudulent, collusive or coercive practices during the selection process or the execution of the contract, without the Borrower having taken timely and appropriate action satisfactory to the Bank to remedy the situation.
 - (d) will sanction a Consultant, including declaring the Consultant ineligible, either indefinitely or for a stated period of time, to be awarded a Bank-financed contract if at any time determines that the Consultant has, directly or through an agent, engaged in corrupt, fraudulent, collusive or coercive practices in competing for, or in executing, a Bank-financed contract; and
 - (e) will have the right to require that, in contracts financed by the Bank, a provision be included requiring Consultants to permit the Bank to inspect their accounts and records and other documents relating to the submission of proposals and contract performance, and have them audited by auditors appointed by the Bank.
- 1.8 Consultants, their Sub-Consultants, and their associates shall not be under a declaration of ineligibility for corrupt and fraudulent practices issued by the Bank in accordance with the above para. 1.7. Furthermore, the Consultants shall be aware of the provisions on fraud and corruption stated in the specific clauses in the General Conditions of Contract.
- 1.9 Consultants shall furnish information on commissions and gratuities, if any, paid or to be paid to agents relating to this proposal and during execution of the assignment if the Consultant is awarded the Contract, as requested in the

		Financial Proposal submission form (Section 4).
Origin of Goods and Consulting Services	1.10	<p>Goods supplied and Consulting Services provided under the Contract may originate from any country except if:</p> <p>(i) as a matter of law or official regulation, the Borrower's country prohibits commercial relations with that country; or</p> <p>(ii) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any imports of goods from that country or any payments to persons or entities in that country.</p>
Only one Proposal	1.11	Shortlisted Consultants may only submit one proposal. If a Consultant submits or participates in more than one proposal, such proposals shall be disqualified. However, this does not limit the participation of the same Sub-Consultant, including individual experts, to more than one proposal.
Proposal Validity	1.12	The Data Sheet indicates how long Consultants' Proposals must remain valid after the submission date. During this period, Consultants shall maintain the availability of Professional staff nominated in the Proposal. The Client will make its best effort to complete negotiations within this period. Should the need arise, however, the Client may request Consultants to extend the validity period of their proposals. Consultants who agree to such extension shall confirm that they maintain the availability of the Professional staff nominated in the Proposal, or in their confirmation of extension of validity of the Proposal, Consultants could submit new staff in replacement, who would be considered in the final evaluation for contract award. Consultants who do not agree have the right to refuse to extend the validity of their Proposals.
Eligibility of Sub-Consultants	1.13	In case a shortlisted Consultant intends to associate with Consultants who have not been shortlisted and/or individual expert(s), such other Consultants and/or individual expert(s) shall be subject to the eligibility criteria set forth in the Guidelines.
2. Clarification and Amendment of RFP Documents	2.1	Consultants may request a clarification of any of the RFP documents up to the number of days indicated in the Data Sheet before the proposal submission date. The Client will respond in writing, or by standard electronic means and will send written copies of the response (including an explanation of the query but without identifying the source of inquiry) to all Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it

shall do so following the procedure under para. 2.2.

2.2 At any time before the submission of Proposals, the Client may amend the RFP by issuing an addendum in writing or by standard electronic means. The addendum shall be sent to all Consultants and will be binding on them. Consultants shall acknowledge receipt of all amendments. To give Consultants reasonable time in which to take an amendment into account in their Proposals the Client may, if the amendment is substantial, extend the deadline for the submission of Proposals.

3. Preparation of Proposals

3.1 The Proposal (see para. 1.2), as well as all related correspondence exchanged by the Consultants and the Client, shall be written in the language (s) specified in the Data Sheet.

3.2 In preparing their Proposal, Consultants are expected to examine in detail the documents comprising the RFP. Material deficiencies in providing the information requested may result in rejection of a Proposal.

3.3 While preparing the Technical Proposal, Consultants must give particular attention to the following:

(a) If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other Consultants in a joint venture or sub-consultancy, it may associate with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if so indicated in the Data Sheet. A shortlisted Consultant must first obtain the approval of the Client if it wishes to enter into a joint venture with non-shortlisted or shortlisted Consultant(s). **Financial
Proposals for
QBS**

- 5.3 Following the ranking of technical Proposals, when selection is based on quality only (QBS), the first ranked Consultant is invited to negotiate its proposal and the Contract in accordance with the instructions given under para. 6 of these Instructions.

Public Opening and Evaluation of Financial Proposals (only for QCBS, FBS, and LCS)

- 5.4 After the technical evaluation is completed and the Bank has issued its no objection (if applicable), the Client shall inform the Consultants who have submitted proposals the technical scores obtained by their Technical Proposals, and shall notify those Consultants whose Proposals did not meet the minimum qualifying mark or were considered non responsive to the RFP and TOR, that their Financial Proposals will be returned unopened after completing the selection process. The Client shall simultaneously notify in writing Consultants that have secured the minimum qualifying mark, the date, time and location for opening the Financial Proposals. The opening date should allow Consultants sufficient time to make arrangements for attending the opening. Consultants' attendance at the opening of Financial Proposals is optional.
- 5.5 Financial Proposals shall be opened publicly in the presence of the Consultants' representatives who choose to attend. The name of the Consultants, and the technical scores of the Consultants shall be read aloud. These Financial Proposals shall be then opened, and the total prices read aloud and recorded. Copy of the record shall be sent to all Consultants and the Bank.
- 5.6 The Evaluation Committee will correct any computational errors. In addition to the above corrections, as indicated under para. 3.6, activities and items described in the Technical Proposal but not priced, shall be assumed to be included in the prices of other activities or items. In case an activity or line item is quantified in the Financial Proposal differently from the Technical Proposal, (i) if the Time-Based form of contract has been included in the RFP, the Evaluation Committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity and correct the total Proposal cost, (ii) if the Lump-Sum form of contract has been included in the RFP, no corrections are applied to the Financial Proposal in this respect. Prices shall be converted to a single currency using the selling rates of exchange, source and date indicated in the Data Sheet.
- 5.7 In case of QCBS, the lowest evaluated Financial Proposal (Fm) will be given the maximum financial score (Sf) of 100 points. The financial scores (Sf) of the other Financial Proposals will be computed as indicated in the Data Sheet. Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight

given to the Financial Proposal; $T + P = 1$) indicated in the Data Sheet: $S = S_t \times T\% + S_f \times P\%$. The firm achieving the highest combined technical and financial score will be invited for negotiations.

5.8 In the case of Fixed-Budget Selection, the Client will select the firm that submitted the highest ranked Technical Proposal within the budget. Proposals that exceed the indicated budget will be rejected. In the case of the Least-Cost Selection, the Client will select the lowest proposal among those that passed the minimum technical score. In both cases the evaluated proposal price according to para. 5.6 shall be considered, and the selected firm is invited for negotiations.

6. Negotiations

6.1 Negotiations will be held at the date and address indicated in the Data Sheet. The invited Consultant will, as a pre-requisite for attendance at the negotiations, confirm availability of all Professional staff. Failure in satisfying such requirements may result in the Client proceeding to negotiate with the next-ranked Consultant. Representatives conducting negotiations on behalf of the Consultant must have written authority to negotiate and conclude a Contract.

Technical negotiations

6.2 Negotiations will include a discussion of the Technical Proposal, the proposed technical approach and methodology, work plan, and organization and staffing, and any suggestions made by the Consultant to improve the Terms of Reference. The Client and the Consultants will finalize the Terms of Reference, staffing schedule, work schedule, logistics, and reporting. These documents will then be incorporated in the Contract as “Description of Services”. Special attention will be paid to clearly defining the inputs and facilities required from the Client to ensure satisfactory implementation of the assignment. The Client shall prepare minutes of negotiations which will be signed by the Client and the Consultant.

Financial negotiations

6.3 If applicable, it is the responsibility of the Consultant, before starting financial negotiations, to contact the local tax authorities to determine the local tax amount to be paid by the Consultant under the Contract. The financial negotiations will include a clarification (if any) of the firm’s tax liability in the Client’s country, and the manner in which it will be reflected in the Contract; and will reflect the agreed technical modifications in the cost of the services. In the cases of QCBS, Fixed-Budget Selection, and the Least-Cost Selection methods, unless there are exceptional reasons, the financial negotiations will involve neither the remuneration rates for staff nor other proposed unit rates. For other methods, Consultants will provide the Client with the information on remuneration rates described in the Appendix attached to Section 4 - Financial Proposal - Standard Forms of this RFP.

Availability of Professional

6.4 Having selected the Consultant on the basis of, among other things, an evaluation of proposed Professional staff, the Client

staff/experts		expects to negotiate a Contract on the basis of the Professional staff named in the Proposal. Before contract negotiations, the Client will require assurances that the Professional staff will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or for reasons such as death or medical incapacity. If this is not the case and if it is established that Professional staff were offered in the proposal without confirming their availability, the Consultant may be disqualified. Any proposed substitute shall have equivalent or better qualifications and experience than the original candidate and be submitted by the Consultant within the period of time specified in the letter of invitation to negotiate.
Conclusion of the negotiations	6.5	Negotiations will conclude with a review of the draft Contract. To complete negotiations the Client and the Consultant will initial the agreed Contract. Appendix

Financial Negotiations - Breakdown of Remuneration Rates

(Not to be used when cost is a factor in the evaluation of Proposals)

1. Review of Remuneration Rates

- 1.1 The remuneration rates for staff are made up of salary, social costs, overheads, fee that is profit, and any premium or allowance paid for assignments away from headquarters. To assist the firm in preparing financial negotiations, a Sample Form giving a breakdown of rates is attached (no financial information should be included in the Technical Proposal). Agreed breakdown sheets shall form part of the negotiated contract.
- 1.2 The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds. The Client is, therefore, concerned with the reasonableness of the firm's Financial Proposal, and, during negotiations, it expects to be able to review audited financial statements backing up the firm's remuneration rates, certified by an independent auditor. The firm shall be prepared to disclose such audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. Rate details are discussed below.
- (i) **Salary**
This is the gross regular cash salary paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).
 - (ii) **Bonus**
Bonuses are normally paid out of profits. Because the Client does not wish to make double payments for the same item, staff bonuses shall not normally be included in the rates. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
 - (iii) **Social Costs**
Social costs are the costs to the firm of staff's non-monetary benefits. These items include, *inter alia*, social security including pension, medical and life insurance costs, and the cost of a staff member being sick or on vacation. In this regard, the cost of leave for public holidays is not an acceptable social cost nor is the cost of leave taken during an assignment if no additional staff replacement has been provided. Additional leave taken at the end of an assignment in accordance with the firm's leave policy is acceptable as a social cost.

(iv) Cost of Leave

The principles of calculating the cost of total days leave per annum as a percentage of basic salary shall normally be as follows:

$$\text{Leave cost as percentage of salary}^1 = \frac{\text{total days leave} \times 100}{[365 - w - ph - v - s]}$$

It is important to note that leave can be considered a social cost only if the Client is not charged for the leave taken.

(v) Overheads

Overhead expenses are the firm's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the contract. Typical items are home office costs (partner's time, nonbillable time, time of senior staff monitoring the project, rent, support staff, research, staff training, marketing, etc.), the cost of staff not currently employed on revenue-earning projects, taxes on business activities and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc., for staff who are not permanent employees of the firm. In such case, the firm shall be entitled only to administrative costs and fee on the monthly payments charged for subcontracted staff.

(vi) Fee or Profit

The fee or profit shall be based on the sum of the salary, social costs, and overhead. If any bonuses paid on a regular basis are listed, a corresponding reduction in the profit element shall be expected. Fee or profit shall not be allowed on travel or other reimbursable expenses, unless in the latter case an unusually large amount of procurement of equipment is required. The firm shall note that payments shall be made against an agreed estimated payment schedule as described in the draft form of the contract.

(vii) Away from Headquarters Allowance or Premium

Some Consultants pay allowances to staff working away from headquarters. Such allowances are calculated as a percentage of salary and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately. For concerned staff, this allowance, where paid, shall cover home education, etc.; these and similar items shall not be considered as reimbursable costs.

¹ Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

(viii) **Subsistence Allowances**

Subsistence allowances are not included in the rates, but are paid separately and in local currency. No additional subsistence is payable for dependents—the subsistence rate shall be the same for married and single team members.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

2. Reimbursable expenses

- 2.1 The financial negotiations shall further focus on such items as out-of-pocket expenses and other reimbursable expenses. These costs may include, but are not restricted to, cost of surveys, equipment, office rent, supplies, international and local travel, computer rental, mobilization and demobilization, insurance, and printing. These costs may be either unit rates or reimbursable on the presentation of invoices, in foreign or local currency.

3. Bank Guarantee

- 3.1 Payments to the firm, including payment of any advance based on cash flow projections covered by a bank guarantee, shall be made according to an agreed estimated schedule ensuring the firm regular payments in local and foreign currency, as long as the services proceed as planned.

Road Sector Program Support Project

Background

1.1 General

The Government of Moldova, represented by the Ministry of Transport and Roads Industry (MTRI), is preparing a **Road Sector Program Support Project (the Project)** to be implemented from 2007 – 2010 and to be financed by the World Bank (WB), European Bank for Reconstruction and Development (EBRD) and European Investment Bank (EIB), together referred to as International Financial Institutions (IFI). The project is in the direct support of the Government's overall Road Sector Program. The project is financed through three separate financing agreements signed between the Government of Moldova on one side, and IDA, EBRD and EIB on the other. IDA will provide an amount equivalent to US\$16 million, in the form of a Specific Investment Loan (SIL). EBRD and EIB will each contribute EUR equivalent of USD 16.35 million. The total combined financing for the project from the three donors is estimated at US\$48.7 million.

1.2. Project objectives and key indicators of the project

The development objective of the proposed project is to *reduce road transport costs for road users* in Moldova, by improving the condition and quality of its road network and the way it is managed. This project objective is being achieved by:

- a. *Road Network Recovery Component*: Rehabilitation of about 200 km of main roads and thereby reducing road user costs in the short term.
- b. *Institutional Strengthening Component*: Improving the capacity of the State Road Administration to manage effectively the road network under its responsibility, and to carry out road maintenance, rehabilitation, and investment programs in an efficient and transparent manner. This should lead to a reduction of road user costs in the longer term.

1.3. Project components

The project has two components. The first component focuses on physical road rehabilitation. The second component will support the implementation of various institutional and other measures which will also be included in the Action Plan of the Land Transport Infrastructure Strategy.

Component 1: Road Network Recovery consists of physical road works and of consulting and other services directly related to those works, such as feasibility studies (technical and economic), detailed engineering design, preparation of bidding documents and supervision of

works. This component will absorb about 90 percent of project resources. The type of works to be carried out through the project can be characterized as localized repair, periodic maintenance and light rehabilitation.

Component 2: Institutional Support. This component aims at strengthening the Government's capacity to manage and maintain the network of National roads. It will provide various types of support to the Government towards the implementation of institutional, legal and other measures which will be included in the Transport Sector Strategy Action Plan. The most important activities will be (i) the creation of a reliable financing mechanism for road maintenance; (ii) the strengthening of SRA's capacity to efficiently manage and maintain the roads under its responsibility and to manage investment programs for road rehabilitation; and (iii) the implementation of a system designed to curb the circulation of overloaded trucks. Other activities may be included, depending on the availability of resources under the project. The component will most likely consist of advisory services to be provided by specialized local and foreign consultants (technical, institutional and legal), training and the purchase of some equipment.

1.4. Project implementation

The project is being implemented under the general supervision and responsibility of the Ministry of Transport and Road Industry (MTRI). However, actual project implementation is being carried out by the *State Road Administration (SRA)*. SRA's responsibilities include: procurement, financial management, contract management, project and program monitoring and evaluation, and reporting. To strengthen SRA's capacity to carry out those functions, local specialists have been recruited under consultant contracts, through a competitive selection process. These are in the areas of procurement, financial management, environment and contract management.

1.5. Accounting and Financial reporting Systems of SRA

SRA has implemented a computerized 1-C accounting system to capture entire accounting transactions of SRA. The 1-C accounting and reporting system is capable of generating trial balance, balance sheet, income statement, and other accounting reports, including project financial statements separately for each IFI.

The system also accounts for all project related expenditures and is able to track IFI financed activities by way of a separate account code in the accounting system.

1. Accounting functions within SRA are performed by the two divisions, the Financial-Economic Division and the Accounting Division, which have seven and six staff respectively. These divisions are headed by a Chief Accountant, who reports directly to the General Director of SRA.
2. The functions Financial-Economic Division are accounting for all transactions of the Road Fund and of the State budget allocation. The functions of Accounting Division are accounting for SRA's revenues from carrying out road repairs, maintenance, and capital construction; and SRA's general administration expenses, such as salaries, rent, etc.
3. The staff of SRA, though familiar with statutory accounting and reporting, is not conversant with the preparation of entity financial statements or the Bank FM requirements. The existing capacity has been strengthened by hiring FM consultant, who assists SRA in preparing consolidated financial statements and also be responsible for preparation of quarterly Project Intermediate Financial Reports (IFRs) and withdrawal applications.

Objectives

The objective of the assignment is to assist SRA management and staff in Preparation of the IFRS based Financial Statements of the State Road Administration. Currently SRA prepares financial statements in accordance with the National Accounting Standards (NAS) and the assistance should be focused on helping SRA management and staff in: (i) preparing IFRS financial statements on basis of NAS based accounting records; (ii) adjusting of existing accounting system to be able to capture all the necessary information for preparation of IFRS based financial statements; (iii) review the SRA’s internal control system for preparation of financial statements and provide recommendations to management on improving the internal control system; (iv) provide on the job training and knowledge transfer for SRA management and staff, so that they are able to prepare IFRS based financial statements in future.

The SRA accounting records provide the basis for preparation of the financial statements and are established to reflect the financial transactions in respect of the SRA. The complete set of financial statements includes:

- (a) balance sheet;
- (b) income statement from all sources and all expenditures incurred during the period;
- (c) cash flow statement;
- (d) statement of changes in equity; and
- (e) accounting policies, disclosures and explanatory notes.

As part of the entity financial statements, SRA includes project financial statements (PFS) in respects of activities financed by IDA, EBRD, and EIB separately as annexes.

The SRA’s accounting system (books and records) provides the basis for the preparation of the PFS.

As the SRA will prepare IFRS based financial statements for the first time, the IFRS 1 “First-Time adoption of International Financial Reporting Standards” should be used by SRA management and consultants. Subsequently, the IFRS based financial statements will be subject to auditing by independent auditors.

Scope

The SRA’s Financial Statements would include, at a minimum, the components noted in the “Objective” paragraph above.

The consultants will assist in preparation of the SRA’s entity financial statements in accordance with the IFRS on the basis of existing accounting records, including the separate annexes related to PFS which will form an integral part of the entity financial statements and should include sources and uses of funds received from the WB, EBRD, and EIB, as well as Summary Reports used as the basis for the submission of withdrawal applications and activities funded through the Designated Accounts. In addition, consultants will advice on (i) adjusting of existing accounting system to be able to capture all the necessary information for preparation of IFRS based financial statements; (ii) review the SRA’s internal control system for preparation of financial statements and provide recommendations to management on improving the internal control system; (iii)

provide on the job training and knowledge transfer for SRA management and staff, so that they are able to prepare IFRS based financial statements in future.

Reports

The final SRA's entity financial statements in accordance with the IFRS, including the separate annexes related to PFS and all disclosures should be prepared by SRA management with assistance by consultants no later than three months after the end of the fiscal year (i.e. by March 31, 2008). In addition, the consultants will prepare a report reflecting all the recommendations on the transition of the SRA accounting and reporting basis to IFRS, including improvements in internal controls used for preparation of financial statements.

General

The responsibility for the preparation of financial statements including adequate disclosure is that of the management of the SRA. This includes the maintenance of adequate accounting records and internal controls, the selection and application of accounting policies, and the safeguarding of the assets of the entity.

The SRA will co-operate fully with the consultant and will make available to the consultant whatever records, documentation and other information is requested by the consultant in connection with the preparation of the SRA's entity financial statements in accordance with the IFRS. The consultant should be given access to all legal documents, correspondence, and any other information associated with the project and deemed necessary by the consultant.

It is highly desirable that the consultant become familiar with the relevant World Bank guidelines, which explain the Bank's financial reporting and auditing requirements. These guidelines include:

- Guidelines: Annual Financial Reporting and Auditing for World Bank-Financed Activities dated June 30, 2003;
- Financial Monitoring Report (FMR) - Guidelines to Borrowers dated November 30, 2001;
- Financial Management Practices in World Bank Financed Investment Operations, dated November 2005.

This term of engagement may be extended subject to satisfactory performance by the consultant. The consultant should understand that all the working papers used on this assignment are SRA's property and should be duly transmitted to the SRA management after the assignment is finished.
