

## Screening checklist to assess social risks and impacts of subproject interventions

Probable Social Impacts	Yes	No	Provide details/Numbers, if possible
1. Will the intervention include new physical construction work?	<b>X</b>		A few number of culverts is proposed to be reconstructed. Replacement of some existing structures (bridges).
2. Does the intervention include upgrading or rehabilitation of existing facilities?	<b>X</b>		A number of new sidewalks, bus stations and drainage facilities will be constructed within RoW.
3. Is the intervention likely to cause any permanent damage to or loss of housing, other assets, resource use?		<b>X</b>	All construction interventions is proposed to be done in existing RoW
4. Is the site chosen for this work free from encumbrances and is in possession of the Public/government/community land?	<b>X</b>		
5. Is this sub project intervention requiring private land acquisitions?		<b>X</b>	For the moment being the design don't expect any land expropriations but there were some comments regarding the geometrical parameters of the road within a narrow section that might imply land acquisition. Depending on the proposed Design Consultant solutions, SRA Technical Committee will adopt the most convenient.
6. If the site is privately owned, can this land be purchased through negotiated settlement? (Willing Buyer – Willing Seller)			Not applicable at this moment. There were some comments to design and if some lands will be necessary they may be appearing.
7. If the land parcel has to be acquired, is the actual plot size and ownership status known?			Not applicable at this moment.
8. Are the subproject cause any access restriction to the commuters/pedestrians/ business and trades?		<b>X</b>	All construction interventions is proposed to be done in existing RoW.

			Minor restriction may be applied for a few hours in coordination with LPA and owners in advance. No any detailed data can be known at this moment. A method statement from Contractor will be requested.
9. Is land for material mobilization or transport for the civil work available within the existing plot/ Right of Way?		<b>X</b>	
10. Are there any non-titled people who are living/doing business on the proposed site/project locations that use for civil work?		<b>X</b>	
11. Is any temporary impact likely?	<b>X</b>		All construction interventions are proposed to be done in existing RoW. Minor restriction may be applied for a few hours in coordination with LPA and owners in advance. No any detailed data can be known at this moment. A method statement from Contractor will be requested.
12. Is there any possibility to move out, close of business/commercial/livelihood activities of persons during constructions?		<b>X</b>	
13. Is there any temporary or permanent physical displacement of persons due to constructions?		<b>X</b>	
14. Does this project involve resettlement of any persons? If yes, give details.		<b>X</b>	
15. Will there be loss of /damage to agricultural lands, standing crops, trees?	<b>X</b>		All construction interventions are proposed to be done in existing RoW.  The total number of trees possible affected are included in ESMPs for specific corridors.
16. Will there be loss of incomes and livelihoods for anyone due to project intervention?		<b>X</b>	
17. Will people permanently or temporarily lose access to facilities, services, or natural resources?		<b>X</b>	All construction interventions are proposed to be done in existing RoW. Minor restriction may be applied for a few hours in coordination with LPA and owners in advance. No any detailed

			data can be known at this moment. A method statement from Contractor will be requested.
18. Will project cause loss of employments/jobs		<b>X</b>	
19. Will project generate excessive labor influx as a result of new constructions	<b>X</b>		If Contractors will decide to employ local labors.
20. Does construction activities require additional/skilled labor from outside the locality	<b>X</b>		
21. Will subproject/construction activities cause destruction/disturbance to host community living	<b>X</b>		Minor restriction may be applied for a few hours in coordination with LPA and owners in advance. No any detailed data can be known at this moment.
22. Will construction of new buildings, drainage lines, powerlines create any degradation/disturbances for public buildings/resources/ adjacent houses, wells, lands, Burial places, children parks, schools etc	<b>X</b>		Minor restriction may be applied for a few hours in coordination with LPA and owners in advance. No any detailed data can be known at this moment.
23. Will this intervention generate downsize in current labor force(retrenchments) of the agency		<b>X</b>	
24. Does intervention may cause unintended consequences such as accidents/ damages to adjacent buildings		<b>X</b>	
25. Are any vulnerable groups who may affect adversely (including indigenous people) due to the project intervention?		<b>X</b>
